Superior INTERIORS

Insulation

NU-Wool, Polyurethane Foam, Fiberglass

A well insulated home keeps you warm in the winter and cool in the summer, which translates to lower utility expenses for the homeowner. In addition, installing insulation in interior walls, such as bathrooms, bedrooms or laundry rooms will greatly reduce the flow of sound.

Superior Interiors is a premier insulation company using only the best products such as NU-Wool engineered cellulose and the choice between 1/2lb. [soft] or 2lb. [hard] polyurethane foam.

Gaining in popularity is the New HYBRID Method, where you use one inch of 2lb. foam and cover the rest of the cavity with NU-Wool Wall Seal.
